

## Satellogic to Participate in Key US Government and Commercial Earth Observation Conferences in March

March 8, 2024

**New York, NY – March 8, 2024** - [Satellogic Inc.](#) (NASDAQ: SATL), a leader in sub-meter resolution Earth Observation (“EO”) data collection, today announced its planned participation in a series of conferences in March with a focus on aligning US government agencies and commercial capabilities for planetary-scale insights.

### **Joint Agency Commercial Imagery Evaluation (JACIE) 2024 Workshop**

Dates: March 11-14, 2024

Location: The U.S. Geological Survey Headquarters in Reston, VA

Michael Frank, Satellogic Director of Customer Success, will attend the annual event sponsored by government agencies including NASA and NOAA to meet with commercial remote sensing experts for discussions on topics including EO capabilities and emerging data applications.

For more information on the JACIE 2024 Workshop, please visit the conference website [here](#).

### **Esri Developer Summit**

Dates: March 12-15, 2024

Location: Palm Springs Convention Centers in Palm Springs, CA

Caitlin Kontgis, Satellogic SVP of Commercial & Growth, will attend the event held annually as an opportunity for leaders in GIS software, location intelligence, and mapping development to share the latest innovations in geospatial applications.

For more information on the Esri Development Summit, please visit the conference website [here](#).

### **CSIS Americas Program: From Terrestrial to Celestial: Unlocking the potential to enhance US-Latin American B2B collaboration**

Date: March 18, 2024

Location: Center for Strategic and International Studies (CSIS) in Washington, DC

Luciano Giesso, Satellogic VP of Space Systems, will participate in the panel discussion “Roadblocks: B2B engagement obstacles” scheduled for 3:55-4:55 pm ET. The CSIS event in partnership with the Information Technology Industry Council’s Space Enterprise Council was created to explore opportunities for collaboration among the US and Latin American space and technology communities.

For more information on the CSIS Americas Program, please visit the conference website [here](#).

### **SATELLITE 2024 Conference & Exhibition**

Dates: March 18-21, 2024

Location: Walter E. Washington Convention Center in Washington, DC

Luciano Giesso, Satellogic VP of Space Systems, will attend the annual event that since 1981 has invited engineers, government officials, and commercial customers for explorations of emerging challenges and solutions for efficient and affordable satellite connectivity.

For more information on the SATELLITE 2024 event, please visit the conference website [here](#).

### **About Satellogic**

Founded in 2010 by Emiliano Kargieman and Gerardo Richarte, Satellogic (NASDAQ: SATL) is the first vertically integrated geospatial company, driving real outcomes with planetary-scale insights. Satellogic is creating and continuously enhancing the first scalable, fully automated EO platform with the ability to remap the entire planet at both high-frequency and high-resolution, providing accessible and affordable solutions for customers.

Satellogic’s mission is to democratize access to geospatial data through its information platform of high-resolution images to help solve the world’s most pressing problems including climate change, energy supply, and food security. Using its patented Earth imaging technology, Satellogic unlocks the power of EO to deliver high-quality, planetary insights at the lowest cost in the industry.

With more than a decade of experience in space, Satellogic has proven technology and a strong track record of delivering satellites to orbit and high-resolution data to customers at the right price point.

### **Forward-Looking Statements**

This press release contains “forward-looking statements” within the meaning of the U.S. federal securities laws. The words “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “intends”, “may”, “might”, “plan”, “possible”, “potential”, “predict”, “project”, “should”, “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. These forward-looking statements are based on Satellogic’s current expectations and beliefs concerning future developments and their potential effects on

Satelloptic and include statements concerning Satelloptic's strategies, Satelloptic's future opportunities, and the commercial and governmental applications for Satelloptic's technology. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. These statements are based on various assumptions, whether or not identified in this press release. These forward-looking statements are provided for illustrative purposes only and are not intended to serve, and must not be relied on by an investor as, a guarantee, an assurance, a prediction or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the control of Satelloptic. Many factors could cause actual future events to differ materially from the forward-looking statements in this press release, including but not limited to: (i) Satelloptic's ability to scale its constellation of satellites and to do so on Satelloptic's projected timeframe and in accordance with projected costs, (ii) Satelloptic's ability to continue to meet image quality expectations, to continue to enhance the capability of its network of satellites and to continue to offer superior unit economics, (iii) Satelloptic's ability to become or remain an industry leader, (iv) the number of commercial applications for Satelloptic's products and services, (v) Satelloptic's ability to address all commercial applications for satellite imagery, changes in the competitive and highly regulated industries in which Satelloptic operates, variations in operating performance across competitors and changes in laws and regulations affecting Satelloptic's business, (vi) the ability to implement business plans, forecasts and other expectations, and to identify and realize additional opportunities, including the ability of Satelloptic to realize the potential benefits of opportunities in the U.S. arising as a result of the license granted by NOAA, (vii) the risk of downturns in the commercial launch services, satellite and spacecraft industry, (viii) the risk that the market for Satelloptic's products and services does not develop as anticipated, (ix) the risk that Satelloptic and its current and future collaborators are unable to successfully develop and commercialize Satelloptic's products or services, or experience significant delays in doing so, (x) the risk that third-party suppliers and manufacturers are not able to fully and timely meet their obligations, (xi) the risk of product liability or regulatory lawsuits or proceedings relating to Satelloptic's products and services, and (xii) the risk that Satelloptic is unable to secure or protect its intellectual property. The foregoing list of factors is not exhaustive. You should carefully consider the foregoing factors and the other risks and uncertainties described in the "Risk Factors" section of Satelloptic's Annual Report on Form 20-F and other documents filed or to be filed by Satelloptic from time to time with the Securities and Exchange Commission. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Satelloptic assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Satelloptic can give no assurance that it will achieve its expectations.
